- Figure 27: High School Graduation Qualifying Examination (HSGQE) – 10th Grade Math Proficiency (Spring 2003)

In the tables and charts in this Appendix, information shaded in black denotes a school district with fewer than 250 students.

NOTE A***USE OF "RESIDENT ONLY" ADM FIGURES IN PER STUDENT RATIOS SUCH AS STUDENTS-PER-TEACHER OR STUDENTS-PER-EMPLOYEE***

DEED FY 2003 employment data for Alaska's 53 school districts do not distinguish between district employees that serve resident students and those that serve correspondence students. Therefore, where ratios are reported for resident students-per-teacher (ADM-to-teacher), resident students-per-other-employees, and resident students-per-total-employees, the ratios for school districts with relatively large correspondence populations are not comparable to those without such populations.

The employee component of the ratios includes all school district employees – those that serve both resident students and correspondence students. However, the student component of the ratios includes only resident students. The previously cited legislative directive for the consolidation study called on the Local Boundary Commission and the Department of Education and Early Development to "identify opportunities for consolidation of schools, with emphasis on school districts with fewer than 250 students." Senator Wilken, the author of the legislative directive, clarified in his previously-noted letter of November 6, 2003, that, "student populations should be based on resident average daily membership figures."

The Galena City School District provides an acute example of the difficulties in comparing the ratios between a district with a relatively large number of correspondence students and one without. In FY 2003, the City of Galena served 3,768 students, of which 3,534 (93.8 percent) were correspondence students. The remaining 234 students were residents of the City of Galena. At the time, the Galena City School District employed 179.9 full-time equivalent employees. Using only the 234 students that attended classes within the City of Galena School District in FY 2003, the 179.9 employees of the Galena City School District yielded a resident-student-per-employee ratio of 1.3:1 (234:179.9).

However, if the entire FY 2003 resident and correspondent student population of the City of Galena school district were considered, it would result in a ratio of 20.9 students-per-employee (3,768:179.9). Since that figure includes students who are not sitting in typical classroom settings, it does not yield a measure that is comparable to districts that do not serve relatively large numbers of correspondence students. In that case, the ratios for districts with relatively large numbers of correspondence students would tend to overstate the efficiency or productivity of employees utilized for instruction.

Clearly, ratios of students-per-teacher/employee in districts with a large correspondence-student base are not comparable to ratios for districts with relatively few or no correspondence students.

NOTE B***USE OF "TOTAL STUDENT" ADM IN PER STUDENT RATIOS SUCH AS REVENUES-PER-STUDENT AND EXPENDITURES-PER-STUDENT***

FY 2002 financial data available from DEED did not distinguish between "resident-only" expenditures, revenues, and local contributions. Therefore, total ADMs (resident and correspondent) are utilized in financial ratios concerning expenditures, revenues, and local contributions. The expenditures-per-student, revenues-per-student, and local-contributions-per-student reported in these profiles are not comparable between school districts with relatively large correspondence-student populations and those without such student populations.

For example, in FY 2002, the Craig City School District served 686 total students, of which 276 were correspondence students (i.e., 40.7 percent correspondence enrollment). Total FY 2002 expenditures in the City of Craig School District were \$6,841 "per student." Correspondence education is understood to be considerably less expensive per student than classroom education – a principle which is reflected in Alaska's education foundation funding formula (see discussion of funding for correspondence students and resident students in the definition of "basic need" in the glossary). Therefore, comparisons between districts with relatively large numbers of correspondence students and those without are difficult.

School Districts with relatively large correspondence-student ADMs in FY 2004 include the following:

School District	Relative Number of Correspondence Students	Absolute Numbers of Correspondence and Total Students
City of Galena	94.3 percent	3,770 correspondence students; 3,999 total students
City of Nenana	76.5 percent	735 correspondence students; 961 total students
Yukon/Koyukuk REAA	69.0 percent	966 correspondence students; 1,401 total students
Chugach REAA	60.7 percent	116 correspondence students; 191 total students
City of Craig	60.5 percent	586 correspondence students; 968 total students
Delta/Greely REAA	35.6 percent	369 correspondence students; 1,036 total students
City of Tanana	34.4 percent	33 correspondence students; 96 total students
Iditarod REAA	23.4 percent	90 correspondence students; 384 total students
Copper River REAA	19.6 percent	130 correspondence students; 662 total students
